2. HAZARDS IDENTIFICATION

2.1 Classification

This material is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200) and WHMIS 2015 Rustrans-Logistic.ru

Category 1 Skin sensitization

Label elements

ans-Logistic.ru Signal word ные импортные масла

Warningые импортные масла

ustrans-Logistic.ru

Precautionary Statements - Prevention:

H317 - May cause an allergic skin reaction

P261 - Avoid breathing dust, fume, gas, mist, vapors, or spray. P280 - Wear protective gloves. P272 - Contaminated work clothing should not be allowed out of the workplace.

Precautionary Statements - Response

P362 + P364 - Take off all contaminated clothing and wash it before reuse.

P302 + P352 - IF ON SKIN: Wash with plenty of soap and water. P363 - Wash contaminated clothing before reuse. P333 + P313 -If skin irritation or rash occurs: Get medical advice/attention. The Hole MMTO

Precautionary Statements - Disposal:

P501 - Dispose of contents/ container to an approved waste disposal plant.

Hazards not otherwise classified (HNOC)

Not applicable

I. FIRST AID MEASURES

4.1 First Aid Measures

General Advice

If symptoms persist, call a physician. Take a copy of the Safety Data Sheet when going for medical treatment.

Eye Contact

Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Keep eye wide open while rinsing. If eye irritation persists: Get medical advice or attention.

Skin Contact ые импортные ма

Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Wash contaminated clothing before re-use. Call a physician immediately.

Inhalation

Rus

Move to fresh air in case of accidental inhalation of vapors. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Call a physician immediately.

Ingestion

Do not induce vomiting without medical advice. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. If symptoms persist, call a physician.

Protection of First-aiders

Use personal protective equipment. Avoid contact with eyes, skin and clothing.

4.2 Most important symptoms and effects, both acute and delayed

Symptoms

No Information available.

4.3 Indication of any immediate medical attention and special treatment needed

Notes to Physician

Treat symptomatically.

Rustrans-Logistic.ru

FIRE-FIGHTING MEASURES

Flammable Properties

NFPA: Class IIIB Combustible Liquid

5.1 Suitable Extinguishing Media:

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment

Unsuitable Extinguishing Media:

Do not use a solid water stream as it may scatter and spread fire.

5.2 Specific Hazards Arising from the Chemical

Keep product and empty container away from heat and sources of ignition.

импорті Hazardous combu<mark>stion products І</mark>АЛЬНЫЕ ИМПОРТНЫЕ

During a fire, smoke may contain the original material in addition to combustion products of varying composition which may be toxic and / or irritating. Combustion products may include and are not limited to:

Carbon oxides

ustrans-Logistic.ru

RI

Calcium Oxides (CaOx) IC. IU
Nitrogen oxides (NOx)
Oxides of Phosphorus
Sulphur oxides

34015005-71200C020 - Nissan Genuine CVT Fluid NS-3, 12 x 1 Liter Case

Revision Date: 04-Feb-2019

5.3 Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Personal precautions

Avoid contact with eyes, skin and clothing. Avoid breathing vapors or mists. Use personal protection recommended in Section 8. Ensure adequate ventilation. Remove all sources of ignition.

6.2. Environmental precautions

Environmental Precautions

See section 12 for additional ecological information. Prevent further leakage or spillage if safe to do so. Prevent product from entering drains. Do not allow into any sewer, on the ground or into any body of water. Do not flush into surface water or sanitary sewer system. Large Spills: Dike far ahead of liquid spill for later recovery and disposal. Prevent entry into waterways, sewers, basements or confined areas.

Methods and material for containment and cleaning up

Methods for Clean-up

Contain and collect spillage with non-combustible absorbent material, (e.g. sand, earth, diatomaceus earth, vermiculite) and place in container for disposal according to local / national regulations (see section 13).

Spill Management

LARGE SPILLS

Eliminate sources of ignition. Prevent additional discharge of material if possible to do so without hazard. For small spills implement cleanup procedures; for large spills implement cleanup procedures and, if in public area, keep public away and advise authorities. Also, if this product is subject to CERCLA reporting (see Section 15 Regulatory Information) notify the National Response Center.

WATER SPILLS

Prevent liquid entering sewers, watercourses, or low areas. Contain spilled liquid with sand or earth. Recover by pumping or with suitable absorbent. If liquid is too viscous for pumping, scrape up. Consult an expert on disposal of recovered material and ensure conformity to local disposal regulations.

7. HANDLING AND STORAGE

7.1. Precautions for safe handling

Handling

Do not breathe dusts or mists. Avoid contact with eyes, skin and clothing. Use personal protection recommended in Section 8.

Wear protective gloves, protective clothing, eye protection, and face protection. Wash hands thoroughly after handling. Remove and wash contaminated clothing before re-use. Do not eat, drink or smoke when using this product. Should not be released into the environment.

Safe Handling Advice

Handle in accordance with good industrial hygiene and safety practices. Take precautionary measures against static discharges.

7.2. Conditions for safe storage, including any incompatibilities

Storage ANDHOLE MACHA

Keep in properly labeled containers. Keep container tightly closed in a dry and well-ventilated place.

Revision Date: 04-Feb-2019

34015005-71200C020 - Nissan Genuine CVT Fluid NS-3, 12 x 1 Liter Case

Technical measures/Precautions

Ensure adequate ventilation.

EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control Parameters

Exposure Guidelines ustrans-Logistic.ru

	Chemical name	OSHA PEL	ACGIH TLV	ACGIH OEL (STEL)	NIOSHT REL TWA	ILA IHG	ILA ROEG	ILA Internal Exposure Limit
3	Oil mist, mineral	TWA: 5 mg/m³	TWA: 5 mg/m ³		TWA 5 mg/m ³ ST 10 mg/m ³			Rustrar
1	ОРИГИНАЛЬНЫЕ ИМПОРТН	ЫЕ МАСЛА		ОРИГИНАЛЬ	НЫЕ ИМПОРТН	ЫЕ МАСЛА		РИГИНАЛЬН

8.2 Exposure controls

Appropriate engineering controls

Ensure adequate ventilation, especially in confined areas. Consider the potential hazards of this material (see Section 2), applicable exposure limits, job activities, and other substances in the work place when designing engineering controls and selecting personal protective equipment. If engineering controls or work practices are not adequate to prevent exposure to harmful levels of this material, the personal protective equipment listed below is recommended. The user should read and understand all instructions and limitations supplied with the equipment since protection is usually provided for a limited time or under certain circumstances. Listrans-Locistic.ru

Personal Protective Equipment

Rustrans-Logistic

Eye/face protection

Safety glasses equipped with side shields are recommended as minimum protection in industrial settings. If splashes are likely to occur wear tight fitting safety goggles and/or face-shield. Rustrans-Logistic.ru

Skin protection

Wear protective gloves/clothing. Long sleeved clothing. Choose the appropriate protective clothing and gloves based on the tasks being performed to avoid exposed skin surfaces. Glove Type: Neoprene, Nitriles

Respiratory protection

If exposure limits are exceeded or irritation is experienced, NIOSH/MSHA approved respiratory protection should be worn. Positive-pressure supplied air respirators may be required for high airborne contaminant concentrations. Respiratory protection must be provided in accordance with current local regulations.

General Hygiene Considerations

When using, do not eat, drink or smoke. Clean equipment, work area and clothing regularly.

ATEmix (dermal) > 2,000 mg/kg

ATEmix (inhalation-dust/mist)

Rustrans-Logistic.ru

ECOLOGICAL INFORMATION

12.1 Ecotoxicity

Ecotoxicity effects

Harmful to aquatic life. Plants and animals may experience harmful or fatal effects when coated with petroleum products. Petroleum-based (mineral) lubricating oils normally will float on water. In stagnant or slow-flowing waterways, an oil layer can cover a large surface area. As a result, this oil layer might limit or eliminate natural atmospheric oxygen transport into the water. With time, if not removed, oxygen depletion in the waterway may be sufficient to cause a fish kill or create an anaerobic environment.

Unknown aquatic toxicity 10.13 % of the mixture consists of component(s) of unknown hazards to the aquatic

environment

Hazard characteristic and regulatory waste stream classification can change with product use. Accordingly, it is the responsibility of the user to determine the proper storage, transportation, treatment and/or disposal methodologies for

spent materials and residues at the time of disposition.

Waste Disposal Method This mate

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local

regulations for additional requirements.
