

Product Name: Mitsubishi Engine Oil 5W30 SN

1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product name: Mitsubishi Engine Oil 5W30 SN

1.2. Details of the supplier of the safety data sheet

Identification of the James JX Nippon Oil & Energy Middle East & Africa FZE supplier:

Address: LOB15, 509A, P.O. Box 261898, Jebel Ali, Dubai, United Arab Emirates

Charge section: TEL:+971-4-8876783 FAX:+971-4-8876780

Website: ans-Logist www.eneos.ae

2. Hazards identification

Classification according to Regulation (EC) No. 1272/2008 (CLP)

2.1. Classification of the substance or mixture

Hazard category Category

Flammable liquids No Classification

Acute toxicity (oral) No Classification Acute toxicity (dermal) No Classification

Serious eye damage/eye irritation No Classification

Aspiration hazard No Classification

2.2. Label elements Rustrans-Logistic.ru

OPTHBE Labeling according to Regulation (EC) No. 1272/2008 (CLP)

Hazard pictograms: Not applicable Signal word: Not applicable Not applicable Hazard statement:

Rustrans-Logistic.ru Precautionary statements:

IBHBIE UMPOPTHEE Prevention Do not handle until all safety precautions have been read and understood. (P202)

Wear protective gloves/protective clothing/eye protection/face

protection. (P280)

Do not allow the eyes to become exposed to the product. Do not альные swallow the product.

Wash hands thoroughly after handling.

Do no eat, drink or smoke when using this product. (P270)

Response IF SWALLOWED: Immediately call a POISON CENTER or d<mark>octor/p</mark>hysician. (P301+P310)

IF SWALLOWED: rinse mouth. Do NOT induce vomiting. (P301+P330+P331)

If the eyes are exposed to the product: Rinse the eyes with plenty of running water and immediately contact a physician.

IF ON SKIN: Wash with plenty of soap and water. (P302+P352)

Product Name:

Mitsubishi Engine Oil 5W30 SN

Storage The product must be stored in a cool, well-ventilated location where it will not be exposed to direct sunlight.

Containers that have been opened must be tightly sealed.

Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.

> If there are any doubts about proper methods of handling the product, contact the point of purchase before proceeding with

2.3. Other hazards

PBT or vPvB : Not applicable

3. Composition/information on ingredients

stic.ru 3.1. Substances

Not Applicable

3.2. Mixtures

Ingredients and Concentration

4. First aid measures пинальные импортные

4.1. Description of first aid measures

Inhalation:

Skin contact:

Eye contact:

IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. (P304+P340) Rustrans-

Cover the body with blankets to keep warm and quiet. If you feel unwell, seek medical advice.

Immediately flush skin with large amounts of water.

Wash contaminated clothing before reuse. (P363)

If skin irritation occu<mark>rs: Get</mark> medical advice/attention. (P332+P313)

> Rinse with clean water carefully for several minutes. Remove contact lenses if present and if removal is easy, then continue rinsing. Rinse for 15 minutes at a minimum and seek medical attention.

Do not induce vomiting. Drink water. Call a physician or poison control center immediately.

4.2. Most important symptoms and effects, both acute and delayed

No information for mixtures.

4.3. Indication of any immediate medical attention and special treatment needed

No information for mixtures.

Product Name:

Mitsubishi Engine Oil 5W30 SN

5. Firefighting measures

Rustrans-Logistic.ru

5.1. Extinguishing media IST/AMS-LOGISTIC YU

Rustrans-Logistic.ru Suitable extinguishing media: Mist of loaded liquid, dry chemicals, carbon dioxide, fire foam, and dry sand are effective.

Extinguishing media to avoid:

Use of straight stream of water can cause a risk of spreading fire.

5.2. Special hazards arising from the substance or mixture

Specific hazards arising from the chemical:

In some cases of fire, may release irritant gases.

Rustrans-Logistic.ru

Fire fighting:

When burnt, may generate carbon monoxide and other toxic gases.

Spray water to the surrounding facilities for cooling.

Keep unauthorized persons off the site of occurrence of fire and

the surroundings.

Even after extinction, cool containers thoroughly with plenty of water.

5.3. Advice for fire-fighters

Special protective equipment and precautions for fire fighters:

Wear fire/flame resistant/retardant clothing. (P283)

Fight fire from windward direction while wearing protective equipment. If contact with skin is expected, wear impervious protective equipment and gloves.

Use air-breathing apparatus and protective clothing whenever necessary.

6. Accidental release measures

6.1. Personal precautions, protective equipment and emergency measures

Wear protective equipment when working.

Remove nearby potential ignition sources immediately.

When mist is generated, use respiratory equipment to prevent inhalation of mist.

Do not touch or walk through spillage.

Pay attention to the site of spillage, which is slippery.

6.2. Environmental precautions

Rustrans-Logistic.ru

Prevent spreading of oil spill with earth and sand, sandbags, or other proper materials and use care not to allow the oil spill to flow to street drains, sewer systems, and rivers.

At sea, install oil spill containment booms to prevent spreading of spills and absorb with absorption mat or other proper materials.

6.3. Methods and material for containment and cleaning up

MSDS: G4035_E710EEN+ Date Prepared: 2017/08/15 Date Revised: 2020/06/01

Product Name:

Mitsubishi Engine Oil 5W30 SN

In case of spillage in small quantity, collect spillage by absorbing with earth, sand, sawdust, waste, or other proper materials.

In case of spillage in large quantity, enclose with embankment to prevent spreading of spillage and collect spillage in empty containers to the exten<mark>t possi</mark>ble.

In case of spillage, immediately inform the organizations ACTIA concerned of the spillage to prevent possible accidents and spreading of spillage.

Remove nearby potential ignition sources immediately and make fire-extinguishing agents available. Remove spillage completely, and ventilate and clean the site and the surroundings.

Rustrans-Logistic.ru 6.4. Reference to other sections

See section 8 for type of protective equipment.

See section 13 for instructions on disposal.

Handling and storage

7.1. Precautions for safe handling

Technical measures:

Keep away from any possible contact with sparks, open flames, and high-temperature materials, and do not allow release of vapor вышения without justification.

Use pumps or other proper equipment for taking out from containers. Do not siphon with your mouth using a tube. Do not Rustrans-Logistic.ru

When mist is generated, use respiratory equipment to prevent inhalation of mist.

In case of vapor/mist dispersion, install a closed system, local ventilation system, and/or other proper equipment for the sources of vapor/mist generation.

Avoid rough handling of containers such as falling, dropping, exposing to shock, and dragging.

Maintain adequate ventilation when handling indoors.

Rustrans-Logistic.ru

Ventilation requirements:

Precautions:

Precautions for safe

Wash hands and face thoroughly after handling.

Be careful with fire.

Avoid falling, dropping, exposing to shock, or dragging of containers.

Wear protective gloves when opening containers to eliminate a risk of hand injury.

7.2. Conditions for safe storage, including any incompatibilities

handling:

ОРИГИНАЛЬН Storage conditions:

Store in a well ventilated, cool, dry, dark place, protecting below MADIC from direct sunlight and keeping away from any potential ignition sources and high-temperature materials.

Store tightly stopped after use to prevent possible contamination with dust and moisture.

Product Name:

Mitsubishi Engine Oil 5W30 SN

Safety adequate container materials: Preferably store locked up in a proper storage area. Use spill-proof containers that are free of damage/corrosion.

7.3. Specific end use(s)

General industrial application

8. Exposure controls/personal protection

8.1. Control parameters	8.	1.	Control	parameters
-------------------------	----	----	---------	------------

stic.ru Rustrans-Logis	ppm, 3mg/m3(Mineral Oil	ppm, None established _m	None established ppm, 5mg/m3(Mineral Oil Mist)

8.2. Exposure controls

Appropriate engineering controls:

In case of mist generation, enclose the source of mist generation, or install a ventilation system.

Install eye cleaning and body cleaning equipment near the handling site.

Respiratory protection:

Not needed under normal conditions, but wear a gas mask (against organic gases) whenever required.

In case of prolonged or repeated exposure, wear oil-resistant hand protection.

Eye/face protection:

In case of exposure to splashes, wear ordinary type goggles.

Skin protection:

In case of handling over a prolonged period of time or in case of exposure to oil, wear oil-resistant, long-sleeved work clothing.

Rustrans-Logistic.ru оригинальн Hygiene measures:ла Rustrans-Logistic.ru

Take off contaminated clothing and wash thoroughly before reuse. ые импо Wash hands thoroughly after handling.
